Canadian Business → Web Producer

My contract duties as a web producer involved web production and creative solutions which entailed close work with editors in maintaining CanadianBusiness.ca

- Coded the content for Canadian Business, Profit & MoneySense magazine websites.
- Created and sent out Newsletters, Designed slideshows and posted Podcasts.
- Imported excel data in MySQL Database & reflecting results on .Net based platform.
- Article import, Content updates, Banners Design, Code and Images optimization.
- QA, Testing in multiple browsers, Inventory of the site.

Dec 2008 - May 2009

6 months

Contract

Beer.com (DTHREE) → Front End Developer

As a Front end developer for beer.com, my key functions were updating the content on a daily basis and improving the user interface experience.

- Coordinated the site and updated the content on a daily basis.
- Implemented Graphical changes and worked on new UI components.
- Designed new interfaces, icons, banners to the site.
- Sliced elements in Photoshop and coded it in HTML CSS and PHP.
- Worked closely with the programmer on the back-end of the site.
- Tested site in multiple browsers. Quality Assurance and Proofreading.

Jun - Sep 2008

3 months

Contract

Ministry of Transportation → Consultant / Coder

Convert the existing Ministry of Transportation website to the new look and feel using semantic SHTML. All the pages were validated and approved by the W3C internet standards.

- Analyzed the scope of the old web site structure and layout.
- Brainstormed new ideas and provided solutions in team discussions.
- Used Dreamweaver to code the new MTO in XHTML and CSS.
- All produced code was done using semantic SHTML in a tableless web layout.

Feb - Apr 2008

3 months

Contract

- Tested site in all browsers. Quality Control of the site.
- All the pages were validated and approved by the W3C internet standards.

Business Media → Front End Developer

Coded over 120 approved graphic prototypes. Designed new graphical concepts. Worked closely with the outside sales team. Assisted and troubleshooted existing customers.

- Coded HTML & CSS, PHP includes and secured Forms in Dreamweaver.
- Created banners, animation and web presentations using Flash.
- Customer support & technical consulting services to existing clients
- Web site graphic design in Photoshop.
- Met with existing clients, and worked on incoming updates.
- Transferred domains, FTP files, MySQL databases, configured DNS and email setup.
- Testing and Quality Assurance.

Jan 2007 - Feb 2008

1 year+
