---

I am performance driven and possess over a decade of experience in web development with proven history of utilizing strong digital skills, attention to detail, and smart work ethics to turn complex requirements into working systems.

## EXPERIENCE

JUL 2018 – FEB 2021

### SR. DIGITAL DEVELOPER LEAD, ROGERS COMMUNICATIONS

- + Led a 12-member team of developers working on rogers.com, fido.ca & r4b.
- + Reviewed and distributed daily deliverables, campaigns, and major projects to developers
- + Tech Reviewed incoming work and ensured stories were well defined & assigned in Jira.
- + Facilitated daily stand-ups, resolved issues, and planned incoming work based on team capacity.
- + Managed expectations and supported Product owners and ensured project timelines were met.
- + Reached out to release management to secure our daily releases.
- + Worked with the Optimization team on feasibility of A/B test scenarios in Adobe Target.
- + Helped POs define user stories and plan for upcoming sprints based on our team capacity.
- + Produced monthly and quarterly reports on team's performance and milestones.
- + Worked with the devops team on a CI CD pipeline to deploy apps to Akamai Netstorage env.
- + Reviewed accessibility reports and created user stories to resolve high level issues.
- + Automated newly defined JIRA tickets alerts in Microsoft Teams.
- + Interviewed new job applicants and trained incoming co-op students as part of New Grads program.

OCT 2009 – JUL 2018

### WEB DEVELOPER, ROGERS COMMUNICATIONS

- + Responsible for day-to-day web development operations on rogers.com, fido.ca, small business.
- + Launched high-level campaigns & built new responsive pages.
- + Built new and updated existing responsive pages
- + Provided ad hoc support and troubleshooting to fix production issues.
- + Participated in war rooms and code deployment releases.
- + Worked with Akamai on site clean-up, vanity URLs and page redirects.
- + Used Git & Interwoven Teamsite/Livesite to update CMS.
- + Code reviews, QA and testing on multiple browsers & devices
- + As a Scrum Master Backup, I provided Tech Review estimates in Jira
- + Worked with Planning Team on incoming requests.

JUN 2009 – SEP 2009

### WEB PRODUCER, INFOTEK (CONTRACT) → ROGERS MEDIA

As part of an ad inventory display, this project involved implementing a digital display ad functionality across all Rogers-owned and operated web properties.

DEC 2008– MAY 2009

### WEB PRODUCER, INFOTEK (CONTRACT) → ROGERS MEDIA

My contract duties as a web developer for Canadian Business, Profit & MoneySense magazine websites involved creating new components and supporting the editor staff.

**JUN 2008 – SEP 2008**

**WEB DESIGNER / FRONT END DEVELOPER**, DTHREE (CONTRACT) → BEER.COM

As a Front end developer for beer.com, my key functions were updating the content on a daily basis and improving the user interface experience.

**JUN 2008 – SEP 2008**

**CONSULTANT / FRONT END DEVELOPER**, DIGITAL EMBRACE (CONTRACT) → MTO

Converted the existing Ministry of Transportation web site to the new look and feel redesign standard. All produced code was done using semantic SHTML in a tableless web layout and all the pages were validated and approved by the W3C internet standards.

**JAN 2007 – FEB 2008**

**FRONT END DEVELOPER / WEB DESIGNER**, BUSINESS MEDIA

Coded over 120 approved graphic prototypes. Designed new graphical concepts. Worked closely with the outside sales team. Assisted and troubleshooted existing customers.

**JAN 2006 – DEC 2006**

**WEBMASTER / CODER / CUSTOMER SUPPORT**, ACD STUDIOS

Sliced and coded over 100 approved graphical concepts. Provided technical support and assisted existing customers.

**JAN 2006 – CURRENT DATE**

**FREELANCE PROFESSIONAL**, TIMUR.CA/WEB FORWARD

As a freelance professional, I manage projects from start to finish and provide my clients brand development, web design and search engine friendly websites.
