Toronto

I possess over a decade of experience in web development with proven history of utilizing strong digital skills, attention to detail, and smart work ethics to turn complex requirements into working systems.

EXPERIENCE

JUL 2018 – FEB 2021

SR. DIGITAL DEVELOPER LEAD, ROGERS COMMUNICATIONS

- + Lead a 12-member team of developers working on rogers.com, fido.ca & r4b.
- + Delivering all the daily deliverables + major company campaigns.
- + Facilitated daily stand-ups and collaborating to support the three brands.
- + Sprint and capacity planning with scrum masters & planners.
- + Tech Reviewed incoming work and assigning to developers.
- + Managing expectations and supporting Product Owners and resolving issues and blockers.
- + Produced monthly and quarterly reports on our teams performance.
- + Trained and mentored new students for our New-Grads Program.
- + Interviewed new applicants.
- + Automated newly defined JIRA tickets alerts in Microsoft Teams.

OCT 2009 – JUL 2018

WEB DEVELOPER, ROGERS COMMUNICATIONS

- + Responsible for day-to-day web development operations on rogers.com, fido.ca, small business.
- + Launch high-level campaigns.
- + Provide ad hoc production support and troubleshooting.
- + Build new and update existing responsive pages.
- + Participation in war rooms and code deployment releases.
- + Using Git & Interwoven Teamsite/Livesite to update CMS.
- + Scrum Master Backup
- + Work with Planning Team on incoming requests
- + Providing Tech Review estimates in JIRA
- + Code reviews, QA and testing on multiple browsers & devices.

JUN 2009 – SEP 2009

WEB PRODUCER, ROGERS MEDIA

As part of an ad inventory display, this project involved implementing a digital display ad functionality across all Rogers-owned and operated web properties.

DEC 2008– MAY 2009

WEB PRODUCER, ROGERS MEDIA

My contract duties as a web developer for Canadian Business, Profit & MoneySense magazine websites involved creating new components and supporting the editor staff.

JUN 2008 – SEP 2008

WEB DESIGNER / FRONT END DEVELOPER, DTHREE

As a Front end developer for beer.com, my key functions were updating the content on a daily basis and improving the user interface experience.

JUN 2008 – SEP 2008

CONSULTANT / FRONT END DEVELOPER, DIGITAL EMBRACE

Converted the existing Ministry of Transportation web site to the new look and feel redesign standard. All produced code was done using semantic SHTML in a tabless web layout and all the pages were validated and approved by the W3C internet standards.

NOV 2006 – FEB 2008

FRONT END DEVELOPER / WEB DESIGNER, BUSINESS MEDIA

Coded over 120 approved graphic prototypes. Designed new graphical concepts. Worked closely with the outside sales team. Assisted and troubleshoot existing customers.

APR 2005 – NOV 2006

WEBMASTER / CODER / CUSTOMER SUPPORT, ACD STUDIOS

Sliced and coded over 100 approved graphical concepts. Provided technical support and assisted existing customers.
